VOLUME 18

OCTOBER 2000

NO. 2

REFRIGERATION NIGHT

Tuesday, October 17, 2000

**CONFERENCE on STANDARD 90.1-1999
VIDEO of SATELLITE BROADCAST**

at

**Caboto Club
2175 Parent Ave.
Windsor, Ontario**

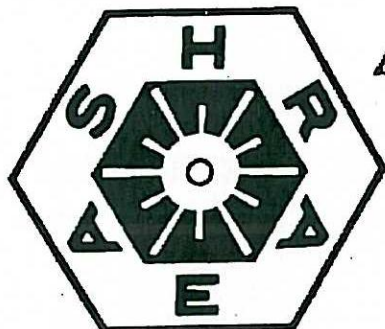

**Fellowship: 5:30 p.m.
Dinner: 6:30 p.m. (Cash Bar)
Video showing: 7:45 p.m.
Discussion Period: 8:15 p.m.**

(ASHRAE Members \$25, Guests \$25, Students \$20)

Windsor Chapter members are asked to take a moment of silence and offer respect to our recently departed founder, mentor, associate and, for those who knew him—friend, John Lorentz Russell Kenney who passed away September 5, 2000. John worked for Engineered Air for 25 years and while still a member of the London chapter was singularly instrumental in the birth of our chapter.

Topic: Overview of Standard-90.1 The next generation of Commercial Building Energy Standards. One of ASHRAE's most important standards. Changes discussed center on the building envelope, mechanical and electrical systems. This will be a video presentation of the actual broadcast.

**For Dinner Reservations Contact:
Jan at 974-5800 by Friday, October 13, 2000**

TEGA NIGHT

Tuesday, November 21, 2000

SELECTING THE RIGHT ENERGY RECOVERY SYSTEM

at

**Caboto Club
2175 Parent Ave.
Windsor, Ontario**

Fellowship:	5:30 p.m.
Dinner:	6:30 p.m. (Cash Bar)
Video showing:	7:45 p.m.
Discussion Period:	8:15 p.m.

(ASHRAE Members \$25, Guests \$25, Students \$20)

Speaker: Verne Quiring P.Eng.

**Verne is the sales coordinator for Engineered Air---Heat Transfer Plant
Calgary, Alberta**

Topic: The four most commonly used types of energy recovery are described; glycol-run-around, plate or air to air heat exchangers, heat pipes and total energy or enthalpy wheels. Pros and Cons of each are discussed with examples of applications.

Future Ashrae meeting dates are listed for your information:

January 16, 2000 Tuesday—Low Temp Refrigeration

February 20, 2000 Tuesday---Climatic weather data review

March 20, 2000 Tuesday----TBA

Membership Profiles

Anyone wishing to provide a profile, please provide a photo and short write up of yourself. Send information to Mr. Dan Castellan.

Members at Work

James Smith, Dr. David Ting, Brian Dayus, Phil Landry and Dan Castellan were amongst many judges at the Windsor Regional Science Fair held at the University of Windsor on Saturday March 31, 2001.

The ASHRAE Windsor Chapter sponsors three awards for the best project in Energy Conversation related areas and in four categories, Senior, Intermediate, Junior and Novice. This year there were no entries in the senior category. The three winners each receive a \$50 cheque and a plaque.

This year winners were as follows:

Novice - Physical Sciences

Ms. Katie Chauvin - St Pius X School
Titled - Solar Power

Junior - Physical Sciences

Ms. Justine Wiley - St Bernard School
Titled - Water Pumping Windmills

Junior - Engineering

Ms. Bree Dayus - St Gregory School
Titled - Is This The Solar Century?

*James Smith, P. Eng.
Science Fair Representative*

Regional News

This years Chapter Regional Conference (CRC) is being held in Halifax Nova Scotia. Members wishing to attend please contact the any member of the board.

Article

SURVIVING THE MAD SWINGS

Afraid of a market correction? What should investors do now. Here is some advice compiled from various market analysts.

- ☞ Refuse to panic. Stick to an investment plan, take a long term view and do not follow the crowd. Make decisions based on logic, not emotion.
- ☞ Diversity. You don't want to be overloaded with any one underperforming stock or stock group. And you don't want to miss out on one that's taking off.

- ☞ If you have short-term needs for money invested in the market, consider taking some profits now to lock them in. Trim back any exceptionally large holdings in any one stock.
- ☞ Add some defensive power by owning stocks that pay healthy dividends. This income tends to act as life preserver, helping to hold up the value of a stock in a declining market.
- ☞ Stick to quality. If your bank stocks drop 20 percent, they're still solid seasoned companies and will recover.
- ☞ If you do go to GIC's, stagger your maturities over short, medium and long terms. You don't want all your money to mature at the same time.
- ☞ Accept that volatility is the nature of the beast. Decide what proportion of your savings you feel comfortable having in an asset that fluctuates in value, and then stick with it.
